

# EGG CARTON CATERPILLAR

You will need:

- Egg carton
- Scissors
- Glue Stick
- Felt Pens or Paint
- Pipe cleaners or straws
- Paper or card
- Googly eyes - optional

## Step 1

Cut the egg carton into individual strips. You might need help with this from a grown up. Paint or colour in the egg cups.

## Step 2

Colour in your egg cup strip with a colour of your choice.

## Step 3

Cut up the pipe cleaners or straws to make antennae and legs, if you don't have these, cut some paper, colour this in black and roll up.

## Step 4

Using a sharp pencil, poke holes through the front and sides of the egg cup for the antennae/ legs. Ask a grown up for help with this. When you have finished this, stick or draw eyes on your Caterpillar too.

## Step 5

Your caterpillar is complete. Perhaps repeat these steps using just 1 egg cup from a carton to make friends such as ladybugs or spiders.
